

Custom Engineered Filtration Solutions

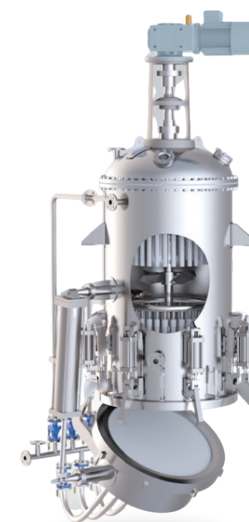

The Microporous Precision Filtration System delivers versatile configurations for tailored solutions, backed by advanced materials for reliable performance across applications. With flexible design, it addresses unique operational needs and ensures global adaptability, presenting an efficient precision filtration option.

Features

Extended Filter Life:

-  Temperature resistance up to 260 °C
-  Chemical Resistant(acids/alkalies/salts)
-  Multi-cycle regenerable:
Backflush & Chemical Recovery
-  High-throughput separation

-  Sealed System - Cleaner Production Environment
-  Smart PLC - Fully Automated and Easy to Operate
-  Stability - Overpressure Protection and Safety Interlocks
-  Corrosion-resistant Shell Lining - Full Material Compatibility
-  Sustainably Efficient: Continuous Filtration, Optimized Energy Use

Activated Carbon Filtration-Dewatering Systems

Experience a shorter, smarter process. Our integrated systems combine filtration and dewatering to reduce intermediate handling, cut your footprint, and boost capacity—all while ensuring a cleaner, more efficient operation.

The Versatile Precision Filtration System for Critical Process Streams

-  Pd/C Catalyst Recovery & Filtration – Maximize reuse cycles and reduce costs
-  Pre-Crystallization Liquor Filtration – Ensure crystal purity and yield
-  Fermentation Broth Clarification & Polishing – Achieve superior product quality with robust filtration

Dongou MF: Precision Engineered for Your Process

Since 1986, Zhejiang Dongou Filter Manufacturing Co., Ltd. has specialized in high-performance microfiltration and solid-liquid separation systems.

With advanced polymer-based and surface layer filtration technologies, our solutions are recognized for chemical compatibility, temperature resistance, and long-term durability. Beyond equipment supply, we deliver integrated filtration-washing units and crystallization systems, supported by advanced selection methods and lab validation to ensure precise, reliable results for pharmaceutical processes.

Our Credentials: Built on Trust & Certification

TECHNICAL LEADERSHIP:

50+ Patents, National Standard Setter for Polymer Filter Elements

INTERNATIONAL COMPLIANCE:

CE PED 2014/68/EU, ASME, KOSHA

CERTIFIED MANAGEMENT SYSTEMS:

ISO 9001, ISO 14001, ISO 45001, ISO 50001

“

Thank you for considering Dongou MF for your filtration needs. To learn more about our technology or to request a quote, please contact us today. Our team is standing by to answer any questions you may have and help you achieve your goals. ”

Dongou's Filtration Technology

Operating Center:

Room 1405, Binrun Building, Binjiang Street, Lucheng District, Wenzhou, Zhejiang Province, China

Filter Plant:

No.85-2, Shiniu Road, Shuige Industrial Park, Lishui City, Zhejiang Province, China

Pressure Vessel Plant:

No.128 Qibaiyang Street, Liandu District, Lishui City, Zhejiang Province, China
